Is that the one which I have already downloaded? I am a bit disoriented. I have the original and the Enhanced Edition. Both of them have the same update number: 201-0-898287. What do you recommend? I have a question: Are there any compatibilities between the original and the enhanced edition? Is there anything I need to be aware of? -Till. GamesRUslimOne 03-02-2005, 12:22 AM Till, sorry about the late reply. The update is required to enable all of the features in the enhanced edition. I don't know if you have ever played the original, but it does not have all of the available patches and such. As to your question, no, the basic features are exactly the same. Only the save file is different (in the first one it will work in the most of your titles, while in the second one it will work in all of the titles), but the basic "features" are not. Also, if you do not have the enhanced edition, I would not bother downloading it. Till. Waldo 03-02-2005, 04:29 AM Thanks for the reply, Till.

03-02-2005, 04:45 AM You're welcome. I hope it helped. longtime no see 03-02-2005, 10:45 AM Oh well, I guess I won't be having any more contact with the forum again :p 03-02-2005, 11:24 AM ... It won't be your loss, anyway, since you are leaving.
The Verdict 03-02-2005, 01:52 PM Actually, I'm happy to be leaving. I get tired of all the BS in the forums lately. I've been more than willing to leave the forums myself, but seeing the other posts, I'm glad I won't have to. 82157476af
